A case involving the liability of common car-ters has been tried in the Supreme Court Circuit, part three. John & Council brought an action is socials the American Transit Co. for the loss of a trusk which he bröught with him as baggage on the stesmer America from San Fruncisco to New Tork, and the jury brought in a verdict for plaintil, assuming his loss as \$200. The Times Washington special says: In regard to our affairs with England, growing out of the depredations, during the late war, of the priva-teers Alabama and Sheanadonh, Mr. Adams, our Minister to the Count of St. James, was some time since instructed to make a percupiors de-mand for indemnity for the loss occasioned by sar commercial interests. To this dummal Mr. Adams received an exister reply. He was imme-diately instructed to repeat the demand. He did so, but no definite response has as yet heen re-ceived; but the tone of the English newspapers recently received indicates that these interest and negent demands have not been without effect. The British Government as now putting out feel and organt demands have not been without effect. The British Government is now putting out teel ers in their various organs showing their disposition in the matter. From these it appairs that they are willing to submit the claims to arbitration or to abosed of authoral commissioners. Our Government will accept no arr ingenent of this sort but will indust up a prompt and tail pyment of our claims. This is our utilinatum as contained in the instructions under which Mr. Adams is now noting.

ment of our claims. This is our ullimatum as contained in the instructions under which Mr. Adams is now noting.

The Times' Washington special says: The attitude of the theorement toward Mexico and the condition of affairs in that country as previously communicated to you, is fully confirmed. The French Government have asked the a delay of their for the withdrawal of their st installment of their troops until the first of January, which there for the withdrawal of their st installment of their troops until the first of January, which the time allowed for the removal of the remaining detachments and remove all substantially at one time. To this our Government has not assented, but insists that the withdrawal shall commence at once and proceed as vigorously as possible. In case of marchy, our Government will asstain the Juneze Government, and in consideration of stayless indicated to the United States. It is no part of the agreement yet made that the United States is to gnarantee the calms of Frence agalast Mexico, though such a course may yet appear expedient and proper, in which case the diovernment of this country will not hesitate to take the responsibility. The noting point sought is to enforce the Monroe doctrine by removing European institutions from Mexican stalers and searching to that country a stable Republican form at Government.

The responsibility of this undertaking has been fully discussed by the Cabinet and the decision has been manimously arrived at that the time has come for the energetic action indicated in the proceeding above forestadowed. These proceedings have now taken a definite form and shape and fave outered so far into proseention as to be decomed real.

The stollowing revolution was unanimously adopted:

Recolved, That the object of this Convention is the improvement of railroad construction, manufacture and management, and that no action should be taken tending to violate the railroad interest, or place it in a position antigonists to other interests, and that no subject should be entertained involving political, sectional or similarly exciting ambjects.

The attention of the Committee was called to the vast extent of country through which the lines represented passed, and it was suggested that a general Railroad Bureau be established, on which solentific men and able engineers should be employed. The subject was referred to a committee of five, and the Convention adjourned till to-morrow morning.

The Breshing Express says: A very respectable contribution of arms and ammunition was easit to headquarters to-day by the Fenions of Troy, who are preparing to back it up with a still larger donation at an early day. Munitions of war arrived from several other parts of the State to-day.

It is the home of Sepator Reverdy Johnson, who declared that us the test oath was "ausonatitutional," there was no crime in breaking it, and of Montgomery Blair, who has "threatened civil war" unless Congress recedes form its position. Large numbers of her citizens ioined the rebel find slavery abolished, and that there are many of them disqualified by law, for voting. A Sen-ator is to be chosen next winter, in place of Creaswell, the present loyal member, and Goy. one members of the Legislature are chosen from the city of Baltimore, and it is hoped to over-slaugh the Union vote by practically nullifying the present stringent election laws. But the present Board of Police Commissioners are loyal men and have the appointment of judges and clerks of elections. The Governor has therefore exercised the power of removal, and of substituting the tools of his own party.

ment of the city is determined to maintain and enforce the existing laws, and to resist the per-petration, of fraud, with force, if necessary. The aristocratic class and the merchant class of Baltimore are of Rebel proclivities, their marriage connections and their tradebelog Southern. But the working men and mechanics are intensely Republican and of that stamp who will brook that those who gave secret or open ald to political power, and that by the monstrous

The petition for the removal of the Commis sioners was presented by a man who, in his speech upon the occasion, avowed himself a evenpathizer with the rebellion, and is numer the war as active and malignant enemies of the Republic. If they can secure the removal of the present Judges of Election every rebel sympa thiser whose name has been placed upon the registry will be allowed to vote, although it is made the express duty of the Judges to exclude such votes from the bullet-box. Among those who have taken the from elad oath is the President of the Legislature which met at Frederick in 1861 and tried to take the State out of the Union, who was arrested by McClellan at that time and imprisoned in Fort McHenry. Another was allowed to register, who stated at the time that he was one of those who fired upon the 6th Massiehnsetts Regiment on the 19th of April. United States Senator.

The Corry Evening Telegraph remarks upon the Senator question that Cameron is out of the spection, that his record is bad and that his antedeuts would not do credit to the great State of enusylvania. It thinks Storens too old and willful and destitute of the calmness and delibers on fitting to the Senate. It favors the election of Forney from his familiarity with the business of legislation and because he is a special mark of Johnson's bate. It says it would not disparage the ability of Governor Curtin, and pays an sloquent tribute to his patriotic services during the war and his great personal worth.

The Eric Dispatch says in a second article that if houesty will fill the position it will be awarded, and Cartin is our preference. It thinks Forney's chances none of the best, though it con cedes his ability in State affairs, and equalides that the context is between Curtin and Cameron in which case it says "we hope to be poisoned if we favor Cameron." In its first article the Dispatch said that "certain members of the Republican party were unxious that Governor Curtin chould set himself up to be voted for" for Senator. Our answer was in effect that Curtin was one of the leading candidates as well as one of the most popular and descrying. In its reply the Dispatch needes that the contest is between Curtin and

EMPIRE LINE. This justifution is of invaluaporting goods from New York, Philadelphia. Chicago and other points to Titus ville. We have lately had occasion to know that the arrangements for freighting from New York to this place are very perfect. Mr. Alfred Owen, the agent at the office, 265 Broadway, is therough ly posted up in the business, and a gentleme one likes to meet a second time. It is an actual fact that some classes of freight are carried cheaper by the Empire Line than when cutrusted to the milroads. Printing presses are charged at \$1.60 per hundred pounds from New York to this city, but by this line but \$1.37, which is the rate enumerated in the first class. For freight rated in the second class but \$1.10 is charged. We commend this line to the public. Mr. Charles P. Hatch is

IMPORTANT TO OIL OPERATORS,-We have een shown a new and valuable invention which vill attract the attention of oil operators throughout the country. It is Dempster Moore's patent for drilling oil wells. It combines in one in strument a driller, a rimmer and a and pump-It is claimed that it will put down a well in on-half the time consumed in ordinary processes.— It has been tested in the States of Kentucky and Ohio with success, and Mr. Dempster Moore has it on exhibition in this city, and offers the patent right for Pennsylvania for sale. Mr. Moore may e seen at the Crittenden House.

iditors Morning Horald:

I have waited for several days in hopes some of our city officials would reply to some of the slang strictures of "Citizen," which appeared in wast of Friday. But as they remain at lent, no doubt reasoning as did the individu after being kicked by the mute, or, perhaps, like another, who, having been offered counterfeit money, rejected it with the remark, "No person so apright or good but what may have insults or counterfeits tendered him, but no true man would eceive either."

The article in question seems to me to be pa icularly full of vindictiveness and smacks strongly of untruth, nor can we blame him when he cannot tell a father from a grandmother. The frog and the ox story is well enough, and it is easy for the reader to discover who play the frog. His supposed merriment at the alleger ignorance of our most worthy citizens (votes said so) in regard to the implements of a Fire De partment would partake of a zany and is the argu ment of a clown, and here let us use a proverl. "Seest thou a man wise in his own concelt, &c., &c. Kld gloves forsooth! I will wager paper of pins there are not two pair in possess sion of the members of the Council, or if there be they are carefully concealed from the public So far as the wisdom of that body is concerned they have at least showed it, in one instance, by ot replying in any way to the slanders and ab sive charges and inquendoes contained in the sr ticle alluded to. As regards the disbanding the Fire Company

which had become disorgunized so much that a report could be obtained by the city official from a large portion of it, and the portion dis banded existed only in a name, it was an act of necessity more apparent to the city authorities than to outsiders, and done at the instance of the Chief Engineer, as well as recommended by many of the most influential members of the de-partment. Perhaps, had "Citizen" been at the brakes, as were as many as five of the Council h so ircely berates were, he could, perhaps, had better view of Chief Winsor, and the manner l which he discharged his duties, notwithstanding there were many intermeddling citizens to Inter fere. And here let me remark, I did not see on sumed authority that did not belong to them nd knowing the fact that some of them assisted in drawing home and housing the engines after the fire, rather, than flud fault, I saw in them much to commend, and would refer "Citizen" to the address of the Mayor for the reforms el fected in our city within the last six months. am perfectly satisfied with the administration of our city affairs and will venture to say that a un-joilty of our citizens are, and, as a proof, I cite the willingness with which they hear our enor the same. Some of them are so well satisfied with the outlay as to suggest an additional tax for the benefit of our unfinished streets, that for five years have been to us a burning shame and :

The article alluded to, and the silent contempt with which it has been treated by those assailed, reminds use of the dog baying at the moon: the moon kept right on just the same as if the dog had attended to ble own little affairs, and had never attempted to dietate the move

ments of the solar system, However, when journeyman shoemakers and wood-butchers get above their business dignity or virtue is likely to get a stap in the facu. Nor do I think the Journal, in lending it columns to the public for the purpose of ridi culing or maligning our citizens or our city govent over a lictitious signature, withou miss-represents, and the only excuse we could offer for it is "force of habit" in publishing a "ONE WHO KNOWS." THE PEAK FAMILY AND BEHGER FAMILY. This celebrated company of vocalists, harpists and bell tingers, are to give two of their choices concerts in Corinthian Hall in this city, on Mon day and Tuesday evenings next. They have ust concluded their enterptinment in Cleveland. and the Herald says of them: "At the matine of the Peak Family on Saturday afternoon the portion being children. It was one of the bes and most beautiful animated pictures that can be imagined, and the most thoroughly delighted throng of little folks ever in Brahmed's Hall, we venture to say. The juvenites of the Peak and Berger Families were in their imposest moods, as though they had caught the inspiration from their happy and aulmated young visitors. They sung and acted with a charming aban don, and scened to enjoy the entertainment a fully as their young friends In the evening, the ast entertainment was given, and the house again erowded. The success of these two tal ented families has been wonderful, but no more than they deserved, for they give one of the bes entertainments of any organization in the coun ry—one that old and young allkeappreciate and enloy. Wherever they may go we can cordially commend them to the people as worthy of the largest parrouage. Mr. W. H. Peak, the musical manager, and Mr. Goodhue, the business man ager, will be found to be gentlemen in every re speet, and under all eircumstances, liberal, high

ninaed and honorable. BAPTIST CONVENTION, - The thirty-ninth an nual meeting of the Penusylvania Baptist Convention was held in the First Bantist Church Erie, Pa., on Tuesday, Oct. 23d, and will continue

----Brows & Vick have on hand one De Kuhn' elegant pianos, called the "Improved Patent Sounding Board Piano." The question has ofter been asked, "why does not the piano like the violin improve in tone with agu?" That the tone of pianos detonates has been a complaint for years. The patent of De Kuhn remedies this defect, which was caused by the contraction and expansion of the core. The sounding board is arranged in this plane so that it can always wibrate and sound free.

The Crude Petroleum Market to-day was very inscitice, in fact this day may be classed among the delicities of the delicities. The market was somewhat weaker than yesterday, and while prices remain unchanged and the tendency still account to be downward, buyers are disposed to hold off in anticipation of lower rates, but holders "don't see it in those lamps," contending that they cannot afford to concede any further, and are that site cannot afford to concede any further, and are silff at yesterday's quotations, but buyers are evidently access to touching at their This afternoon's telegrams from New York bring

quite unfavorable news, and in its general aspect we had an exceedingly dulf and week market to close with had an exceedingly dult and week market to close with and no humediate improvement in prospect. Prices have declined to in New York since our fast. Those were some heavy sales made of Relined in bond at 28: There was a general punier prognosticated a few days ago in the east, but we are glad to see that it did not take place.

Owing to the inclement state of the weather, and the adverse character of the news from the east, there was but little done to day. The only well authenticated sales we could hear of went 300 bils Pioneer at \$2.30; 500 bils same place, absard the care, at \$2.50.
